## For Immediate Release

### Omron's A9PS Ultra Subminiature Pushbutton Switches Now at Mouser

**June 6, 2012** – [Mouser Electronics, Inc.](http://www.mouser.com), regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced that it is the first distributor to stock a new pushbutton switch from [Omron](http://www.omron.com).

The A9PS ultra subminiature series, with a height of only 10.5mm, is 30% smaller than Omron's A9P series. Features of the new pushbutton switch include a gold-plated clip contact, ensuring high reliability and a sealed bottom, preventing flux penetration. The switches are washable, with protection equivalent to IP64 (IEC-60529). A9PS pushbuttons are available as SPST or DPST, and with DIP, right angle, or vertical mount terminals. Typical applications include security control boards, electric power instrumentation, and program controllers. To learn more, visit <http://www.mouser.com/OmronA9PS/>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.9 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

#### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.
