

For Immediate Release

Mouser and Pletronics Partner to Deliver Newest Crystal and Oscillator Technologies to Engineers Worldwide

February 16, 2012 – [Mouser Electronics](#), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced its global distribution agreement with [Pletronics](#), Inc., a leader in the development of oscillator and crystal technology solutions.

In keeping with Mouser's mission to provide the highest quality products to buyers and design engineers worldwide, this new distribution partnership with Pletronics gives Mouser customers access to an extended line of frequency control devices. The TCVCXOs are ideal for many precision timing requirements featuring a Frequency Pullability of ± 5 ppm to ± 8 ppm. Always seeking ways to advance innovation, Pletronics works to anticipate industry needs by continually decreasing device sizes and increasing frequencies to meet the demands of digital semiconductors. Pletronics' design capabilities and manufacturing expertise bring new oscillator concepts to completion quickly, and will allow design engineers incredibly fast access to their crystals and oscillators through Mouser's distribution channels.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8 million products to locate over 2 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 2 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 325,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Pletronics, Inc.

Pletronics, Inc. is a registered manufacturer of high quality crystals and oscillators based in Lynwood, Wahington. They have invested in quartz crystal technologies to provide the newest high volume products to those needing frequency control devices. Pletronics specializes in high frequency, low jitter components suited for high speed data transmission. Pletronics is committed to continuous quality improvement by enhancing production yields, reducing costs and increasing customer satisfaction. For more information visit <http://www.pletronics.com/>.

Trademarks

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
