New Product Announcement

Mouser First to Stock Lightning Fast 120 Gpbs Fiber Transmission Solution from Avago

December 11, 2012 – [Mouser Electronics](http://www.mouser.com), Inc. is now stocking [Avago Technologies](http://www.avago.com)' 12-Channel, Pluggable, Parallel-Fiber-Optics Transmitters and Receivers which provide aggregate 120 Gbps data transmission for short-range parallel multi-lane data communication and interconnect applications.

Operating over multimode fiber, Avago Technologies' AFBR-81/82 12-Channel transmitter and receiver modules are designed to mate with Molex 106267 Series VersaBeam™ POD Cable Assemblies. These assemblies are low-profile, 12-fiber parallel optical device module cable assemblies (also known as PRIZM LightTurn cable assemblies) compliant to IEEE 802.3ba 100GbE (100GBASE-SR10 and nPPI) standards. Avago's MiniPOD solution offers system designers two module package options to optimize their cable management and board layout. The Molex VersaBeam POD Cable Series are jacketed-round and bare-fiber-ribbon cable assemblies that perpendicularly mate to the top of the optical modules, providing simple assembly and optimum airflow on the PCB. Learn more about the Avago Parallel-Fiber-Optics Transmitters and Receivers at <http://www.mouser.com/avago-afbr8x/>. Learn more about the Molex 106267 VersaBeam Series POD Cable Assemblies at <http://www.mouser.com/new/molex/Molex-106267/>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects.

Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Avago Technologies

Avago Technologies is a leading global supplier of an extensive range of analog, mixed-signal, and optoelectronic components and subsystems. Avago Technologies products serve the industrial and automotive, wired networking, wireless communications, and computer peripherals markets.

Trademarks
