

For Immediate Release

Mouser Delivers Flexible Open Source Solution with New FEZ Cerbuino Bee Mainboard from GHI Electronics

June 20, 2012 – Mouser Electronics, Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it is stocking the new FEZ Cerbuino Bee Mainboard from **GHI Electronics**.

GHI Electronics FEZ Cerbuino Bee Mainboard is designed for developers who need a low-cost, Arduino-compatible, .NET Gadgeteer-compatible mainboard. This 100% open-source (OSHW) solution includes a 168MHz STM32F405 ARM Cortex-M4 with 1MB Flash and 192Kb RAM, on-board power connector, voltage regulators, MicroSD connector, USB host, and USB Client connectors. FEZ Cerbuino Bee comes ready to plug-and-play with an included USB cable. Three .NET Gadgeteer-compatible sockets allow connection of most Gadgeteer modules to the FEZ Cerbuino Bee Mainboard. The XBee socket also provides options for wireless connectivity, including WiFi and ZigBee. To learn more, visit http://www.mouser.com/ghielectronics-cerbuino/.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.9 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit http://www.mouser.com.

About GHI Electronics

GHI Electronics is an experienced partner that offers a wide range of .NET Micro Framework hardware and software capabilities using the various drop-in modules/chipsets. ChipworkX Module, EMX Module, and USBizi Chipsets can be easily adopted in a product, with minimal risk and reasonable cost.
