

New Product Announcement

Mouser Delivers Olimex A13-OLinuXino Single-Board Linux Computer

Low power meets high performance with Olimex open-source, single-board computer

December 28, 2012 – Mouser Electronics, Inc. is stocking the very compact, open-source A13-OLinuXino Single-Board Linux Computer from <u>Olimex</u>, featuring the A13 ARM Cortex-A8 Processor.

Olimex A13-OLinuXino Single-Board Linux Computer uses the first Cortex-A8 available in the eLQFP176 package — the Allwinner Technology A13. The A13 ARM Cortex-A8 chip offers higher performance (ManyCore Lite) @1000Mhz and low power consumption. The A13 is built in the eLQFP176 package with an audio codec and 2 Points R-TP integrated. The A13-OLinuXino comes in a very compact nano-ITX form. OLinuXino is an open-source, open-hardware project — an alternative to the popular Raspberry Pi — and all documentation is available to the customer.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more

information, visit http://www.mouser.com.

About Olimex Ltd.

Olimex Ltd. designs, prototypes, and manufactures printed circuit boards, sub-assemblies, and complete electronic products. Olimex provides product / PCB design assembly, harnessing, and panel work ranging from small analog devices to large, complex microprocessor products. Olimex is recognized as a third party hardware developer for Texas Instruments, Atmel, STMicroelectronics, IAR Systems, Cirrus Logic, and

more.
