## For Immediate Release

# Mouser Delivers Olimex's OLinuXino-MAXI Single-Board Linux Computer Enables fast, economical development of Freescale i.MX233 applications

July 3, 2012 – <u>Mouser Electronics</u>, Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it is stocking a new single-board computer from <u>Olimex Ltd</u>.

Olimex OLinuXino-MAXI Single-Board Linux Computer is an open source software and hardware, low-cost Linux industrial grade single-board computer. It is powered by the Freescale Semiconductor i.MX233 Application Processor. The iMX233-OLinuXino uses the ARM926J processor and is a readyto-use, easy-to-set-up board suitable for embedded programming enthusiasts, Linux hobbyists, gadget fans, and professionals. The main features of the board are its processor speed and its mobility. Because OlinuXino is completely open source—including hardware and software—users have access to all CAD files and sources and can reuse them for personal or commercial projects. There are no restrictions to the manufacturing and selling of this board for personal use or resale. To learn more, visit http://www.mouser.com/olimex-olinuxinomaxi/.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.9 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <u>http://www.mouser.com</u>.

#### About Olimex Ltd.

Olimex Ltd. designs, prototypes, and manufactures printed circuit boards, sub-assemblies, and complete electronic products. Olimex provides product / PCB design assembly, harnessing, and panel work ranging from small analog devices to large, complex microprocessor products. Olimex is recognized as a third party hardware developer for Texas Instruments, Atmel, STMicroelectronics, IAR Systems, Cirrus Logic, and more.

#### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
