New Product Announcement

Olimex's OLinuXino-MINI Single Board Computer Now at Mouser

December 18, 2012 – Mouser Electronics, Inc. is stocking Olimex's new open-source OLinuXino-MINI Single-board Linux Computer, featuring the i.MX233 ARM926J processor from Freescale Semiconductor.

The Olimex OLinuXino-MINI Open Source Linux based Single Board Computer is an industrial grade SBC in a very compact form. OLinuXino development boards enable ARM based code development of applications running on the i.MX233 Application Processor manufactured by Freescale. The i.MX233-OLinuXino-Mini features an i.MX233 ARM926J processor with a 454Mhz clock speed. OLinuXino is an open-source, open-hardware project – similar to the popular Raspberry Pi – and is designed around a processor with extensive amounts of documentation freely available to the engineer.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit http://www.mouser.com.

About Olimex Ltd.

Olimex Ltd. designs, prototypes, and manufactures printed circuit boards, sub-assemblies, and complete electronic products. Olimex provides product / PCB design assembly, harnessing, and panel work ranging from small analog devices to large, complex microprocessor products. Olimex is recognized as a third party hardware developer for Texas Instruments, Atmel, STMicroelectronics, IAR Systems, Cirrus Logic, and more.
