New Product Announcement

Mouser Stocking Expanded MSO/DPO2000 Series from Tektronix

October 29, 2012 – [Mouser Electronics](http://www.mouser.com), Inc. is stocking the [Tektronix](http://www.tektronix.com) MSO/DPO2000B Oscilloscopes, with up to 4 analog and 16 digital channels, from 70 MHz to 200 MHz, and attractive pricing for engineers and educators.

Twelve models are available from Tektronix with feature rich tools including advanced, low-speed serial trigger and bus decode, the most advanced trigger system, longer memory, and WaveInspector® controls. Other features include 1M points of usable record length, 1GS/s sampling rate on all channels, 5,000 wfm's waveform capture rate, and a 7-inch display.

The new series provides performance and features required for embedded design testing including decode, trigger, and search support for I²C, SPI, CAN, LIN, and RS-232/422/485/UART. Advanced triggering features are provided for capturing anomalies in digital systems such as runt pulses, setup and hold violations and rise or fall time violations. To learn more, visit http://www.mouser.com/tektronix/Tektronix_MS0_DPO2000B/.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Tektronix

Tektronix is a world leader in test, measurement, and monitoring. Tektronix's extensive product line includes oscilloscopes, arbitrary/function generators, and accessories. Their Quality Management System ensures consistent quality in products and services throughout the world, allowing customers to design, build, deploy, and manage "next generation" global communications networks and internet technologies. Tektronix is committed to environmental responsibility through its comprehensive Environmental, Health, and Safety Policy and providing charitable support to the community through the Tektronix Foundation.
