

For Immediate Release

Mouser Announces Launch of Stratos Product Line from Emerson Network Power Connectivity Solutions

July 25, 2012 – [Mouser Electronics](#), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced its expanded distribution agreement with Emerson Network Power Connectivity Solutions, a business of Emerson, by launching the [Stratos](#) product line into Mouser's expansive line card of connectivity solutions. This new global distribution agreement provides an even broader range of optical connectivity products and builds upon Mouser's successful partnership with [Emerson Connectivity Solutions](#).

The Stratos line of optical connectivity products, designed and manufactured by Emerson Connectivity Solutions, is globally recognized as highly reliable and cost-effective, providing optical connectivity solutions that are virtually immune to dust, mud, oil, water, and other contaminants. The Expanded Beam connectivity products are ideal for harsh environment applications in the broadcast, industrial, petrochemical and military/aerospace markets where high reliability, low maintenance and quick serviceability are critical requirements.

"We are extremely pleased to expand our relationship with Emerson Network Power Connectivity Solutions by adding the Stratos product line of leading connectivity products," states Krystal Jackson, Mouser Vice President of Interconnects. "Mouser takes pride in providing leading-edge performance in connectivity solutions for engineers working in the design stage, and through Emerson Connectivity Solutions high-quality Stratos line of optical connectivity products, we are able to do just that."

"We are excited to announce the addition of the Stratos active products to the Mouser offering of Emerson Connectivity Solutions," states Bret Murphy, Manager Channel Strategy & Programs, Emerson Network Power Connectivity Solutions. "Mouser's expertise in product launch and customer reach is the perfect combination to bring the Stratos product line to new customers and markets around the globe."

Emerson Connectivity Solutions has a wide range of optical transceivers, optical media converters and custom devices tailored to customers' specific applications. Emerson is committed to product innovation and quality. The product lines deliver custom-engineered products and solutions to satisfy the most demanding requirements for wireless communications, military, telephony and data networks and industrial applications.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects.

Mouser Electronics' website is updated daily and searches more than 8.9 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Emerson Network Power

Emerson Network Power, a business of Emerson protects and optimizes critical infrastructure for data centers, communications networks, healthcare and industrial facilities. The company provides new-to-the-world solutions, as well as established expertise and smart innovation in areas including AC and DC power and renewable energy, precision cooling systems, infrastructure management, embedded computing and power, integrated racks and enclosures, power switching and controls, and connectivity. The solutions are supported globally by local Emerson Network Power service technicians. Learn more about Emerson Network Power products and services at <http://www.emersonnetworkpower.com>.

About Emerson

Emerson based in St. Louis, Missouri (USA), is a global leader in bringing technology and engineering together to provide innovative solutions for customers in industrial, commercial, and consumer markets around the world. The company is comprised of five business segments: Process Management, Industrial Automation, Network Power, Climate Technologies, and Commercial & Residential Solutions. Sales in fiscal 2011 were \$24.2 billion. For more information, visit <http://www.emerson.com>.
