## For Immediate Release

### Mouser and Taoglas Sign Global Distribution Agreement

**May 16, 2012** – [Mouser Electronics](#), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced a new global partnership with [Taoglas Antenna Solutions](#), a leading M2M antenna provider for external and embedded antenna solutions.

Mouser's new worldwide agreement with Taoglas Antenna Solutions will provide design engineers and buyers with finished and custom external and embedded antenna solutions through Mouser's fast and convenient ordering capabilities, backed by customer service excellence. Taoglas offers innovative antenna solutions for ISM, cellular, and GPS. With Mouser's wide selection of leading-edge technology, design engineers will be able to achieve their performance targets with a unique speed-to-market advantage. Taoglas' expertise in antenna solutions contributes to Mouser's ability to supply its customers worldwide with high-performance, intensively tested and cost-effective antenna solutions.

"We are very happy to have Taoglas as a supplier partner," says Russell Rasor, Mouser Vice President of Advanced Technology. "With their focus on the latest antenna solutions, design engineers can be confident they are getting the newest antenna technology on the market. We are excited to have them on board and look forward to a beneficial partnership for both of our companies."

"We are very delighted to be working with Mouser," says Dermot O'Shea, Joint Managing Director of Taoglas. "As a leading international distributor that values the needs of design engineers and buyers as much as we do, Mouser's commitment to providing the newest products along with their fast and easy ordering process makes them an ideal partner for Taoglas."

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.9 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

#### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

#### **About Taoglas**

Taoglas provides a comprehensive range of external, embedded and base station antenna solutions for M2M applications such as Telematics/Automotive, Smart-Grid, Metering/Telemetry, Home Automation, Remote Monitoring and Telemedical applications. Taoglas continually innovates and creates new antenna solutions to meet the evolving needs of the machine-to-machine world. Taoglas' products operate consistently at optimum proficiency levels, delivering world-class antenna performance.

#### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
