Mouser is First to Stock the New Phoenix Contact Thermal Magnetic Circuit Breakers

Mansfield, Texas, USA – April 28, 2010 – Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Phoenix Contact.

The Phoenix Contact Thermal Magnetic Circuit Breakers, UT 6-TMC M, is a single-position overload circuit breaker with thermomagnetic tripping. It is a space-saving circuit breaker with a trip-free mechanism in the event of overload and short circuits within the maximum interrupting rating. The Phoenix Contact Thermal Magnetic Circuit Breakers, UT 6-TMC M, is mounted on an NS 35 DIN rail. The UT 6-TMC M features a compact design, large labeling areas, and a double plug-in bridge shaft, as well as a high level of system availability due to the reclosure function and clear status display. Eleven nominal current versions can be selected from 0.5A to 16A. The large center labeling area enables clear assignment of the relevant circuit breaker. [Learn More](#)

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

The Newest Products For The Newest Designs

About Mouser

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit <http://www.mouser.com>.

About Phoenix Contact

Phoenix Contact USA is a worldwide leader in the development and manufacture of electrical connection, electrical interface, and industrial automation technology solutions. A global company founded in 1923 with the U.S. headquarters in Pennsylvania, Phoenix Contact has developed a strong industry presence in innovative products and processes through its wide product range. Components offered include sensor, controller, modular terminal block (invented by Phoenix Contact in 1928), splash proof machine connector, and wireless Ethernet products.
