## Mouser Electronics

### Think Small. Now think even Smaller! The Texas Instruments TPS22907 Ultra Small Load Switch is available at Mouser

**Mansfield, Texas, USA — March 25, 2010** - Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Texas Instruments | Power Management.

The Texas Instruments TPS22907 is an ultra small, low on-resistance load switch with controlled turn on. The TI TPS22907 load switch contains a P-channel MOSFET that operates over an input voltage range of 1.1V to 3.6V and features 1A maximum continuous switch current. The TI TPS22907 load switch is controlled by an on /off input (ON) capable of interfacing directly with low-voltage control signals. The TI TPS22907 load switch is designed for use in a variety of applications, including battery powered equipment, portable industrial equipment, GPS devices, and more. To learn more, visit Mouser's [TPS22907 product detail page](#).

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.

***The Newest Products For The Newest Designs***

### **About Mouser**

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 400 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 270,000 customers in 170 countries from its 432,000 sq. ft. state-of-the-art facility in Mansfield, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).

### **About Texas Instruments**

Texas Instruments provides designers complete power solutions with a full line of high performance products, ranging from standard linear ICs to plug-in and integrated power solutions – all tailored to meet your design challenges. To make product design even easier, TI provides leading-edge support tools and a broad selection of evaluation modules, application notes, comprehensive technical documentation, and more.
