## **Mouser is Stocking the New Tyco Electronics Low Voltage DC Grid Interconnects**

**Mansfield, Texas, USA – April 19, 2010** – Mouser Electronics, Inc., known for its rapid introduction of the newest products, today announced it is stocking new product from Tyco Electronics.

Tyco Electronics LVDC Grid Interconnects are low voltage direct current (DC) connectors and cable assemblies developed to transfer power to and from lighting fixtures, power supplies, controls and other electrical devices intended for use in an EMerge Alliance® compliant system. The design allows for fixture and other electrical device additions, modifications, and location changes on both sides of a bus bar structure without the need for hard wire changes. To learn more, visit <http://www.mouser.com/tycolvdcgridconnectors/>.

Known for its focus on design engineers with its broad product line, unsurpassed customer service, advanced on-line catalog and innovative product marketing, Mouser continuously offers customers the newest products and latest technologies for their new design projects.

Mouser Electronics' website with interactive online catalog is updated daily and searches over 5 million products to locate over a million part numbers available for easy online purchase. Plus, it houses downloadable data sheets, supplier-specific reference designs, application notes, technical design information and engineering tools.
