Mouser Electronics Signs Global Agreement to Distribute Magnetic Technology Solutions from HALO Electronics

March 24, 2015 – [Mouser Electronics](http://www.mouser.com), Inc., the global authorized distributor with the newest semiconductors and electronic components, today announced it has entered into a global distribution agreement and partnership with [HALO Electronics](http://www.halo-electronics.com) – a leading global manufacturer of communication and power magnetic components for Ethernet, telecom, DC/DC converter circuits, and high-voltage isolation applications. The company's new comprehensive portfolio features many of their industry-leading solutions, including their Ethernet FastJacks™, integrated RJ-45 connectors, RF transformers, Power over Ethernet (PoE), and telecom communications products.

The [HALO Electronics product line](http://www.halo-electronics.com), now available from Mouser Electronics, provides a comprehensive selection of networking products and magnetic technologies, including discrete Ethernet transformers and integrated RJ45 FastJacks. The company's Ethernet products range from 10BASE2 filtering modules to high-speed 10Gigabit isolation transformers. HALO's High-Speed, UL recognized, LAN product line offers a wide range of magnetic technologies that meet the IEEE standards for Ethernet and ATM applications. Other products under HALO's portfolio include the HDC, HPC and HDS series of power inductors, PoE and PoE+ transformers, DC/DC Isolation transformers tested and approved by industry leading IC manufacturers, and a complete line of T1/E1 magnetic modules for use in a variety of [telecommunications applications](http://www.halo-electronics.com). HALO is also the exclusive sales and marketing channel for Pro-Tek5 Systems, Ltd. Ethernet isolators and lightning strike protectors.

"This distribution agreement with Mouser Electronics provides a unique opportunity for our customers," said John P. Diggins HALO's V.P of Sales. "With Mouser's extended distribution network, complementary top-notch sales support, and on-time delivery and responsiveness, partnered with HALO's 20+ years of magnetic experience and patented SMD construction, we're sure to expand our global reach and get our products into the hands of developers even faster."

The products featured on the HALO Electronics line card, now available for purchase through the Mouser Electronics website, include a broad selection of quality magnetic components that are targeted toward a variety of applications, including [networking and telecom equipment](http://www.halo-electronics.com), [industrial control](http://www.halo-electronics.com), [medical systems](http://www.halo-electronics.com), [automotive](http://www.halo-electronics.com), and [security](http://www.halo-electronics.com).

"We are very pleased to have the opportunity to distribute HALO's high-quality magnetic and communications-based solutions to our customers worldwide," said Andy Kerr, Mouser Vice President of Supplier Management. "Their addition to our existing product offering is sure to add value and provide our engineering community with many benefits due to their rich history and position as a recognized leader in the market."

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 20 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 4 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 4 million products online from more than 500 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 400,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About HALO Electronics

HALO Electronics is a leading designer and manufacturer of communication and power magnetics. The company's mission is to deliver the highest quality products along with "best-in-class" customer service. HALO's product applications include networking and telecom equipment, industrial control, medical systems, automotive, security, and many more.
