

### **EU Battery Directive 2006/66/EC**

Power-Sonic Corporation Sealed Lead Acid Batteries **do not** contain any of the substances contained in article 4 of the directive:

- (a) *all batteries or accumulators, whether or not incorporated into appliances, that contain more than 0.0005% of mercury by weight; and*
- (b) *portable batteries or accumulators, including those incorporated into appliances, that contain more than 0.002% of cadmium by weight.*

A copy of our Material Safety Data Sheet can be accessed from our website [www.power-sonic.com](http://www.power-sonic.com). Page one of the document lists all the materials that are contained in our sealed lead acid batteries. It will be noted that the EU directive clearly states "**no lead ban**".

It is certified therefore that our sealed lead acid batteries are in full compliance with this directive.
