LEMO Watertight Series Anti-Rotation Shell

A new anti-rotation notch (pictured on right) will be added to the plug and free shell assemblies of the watertight LEMO Series K, E, L, W, and V. The sizes included will be 0,1 and 2.

This change improves the cable grip of the collet and reduces issues related to tightening of the collet nut. An example of a K Series plug shell assembly is shown at right with notch.

The plugs and free receptacles are form, fit or function compatible with current and older mating plugs and receptacles. This feature does not affect the visual appearance of the assembled connector or the sealing function.

The following LEMO Series and Part Numbers are affected:

K Series	E Series	L Series	W Series	V Series
FG*.0K.*	FFA.0E.*	FG*.0L.*	FV*.0W.*	FVN.0V.*
FG*.1K.*	FFA.1E.*	FG*.1L.*	FV*.1W.*	FVN.1V.*
FG*.2K.*	FFA.2E.*	FG*.2L.*	FV*.2W.*	FVN.2V.*
PH*.0K.*	PCA.0E.*	PH*.0L.*	PV*.0W.*	PVP.0V.*
PH*.1K.*	PCA.1E.*	PH*.1L.*	PV*.1W.*	PVP.1V.*
PH*.2K.*	PCA.2E.*	PH*.2L.*	PV*.2W.*	PVP.2V.*

* = various options of keys, inserts, plating, terminations, and collets

This is an ongoing change. The existing stock of each model will be depleted before this new feature is seen in future shipments. Also see Product Update #086 for additional information about PHG.0K.* connectors.

If you have any questions or concerns regarding this change, please contact Customer Service or Applications Engineering at 1-800-444-5366 or email: info@lemousea.com

Thank you for your continued support of LEMO products!
