

Product Change Notice

3M™ Halogen-Free Polyolefin (PO) Cable - Color Change

Issue Number: 786

Date: March 3, 2011

Product Change

In order to make halogen-free cable visually distinguishable from other cables, the resin color of the below noted polyolefin (PO) cable has transitioned from light gray to dark gray. This is only a change to the color of the resin, not the resin itself; therefore, the functionality and technical characteristics of the cable will remain the same. Furthermore, the part numbers will not change due to this transition. The following product series are impacted by this change:

Series	Description	Tech Sheet
HF365	Round Conductor Flat Cable .050" 28 AWG Stranded, Halogen Free PO	TS-2334
HF659	Round, Shielded/Jacketed, Flat Cable AWG Stranded, Mass-Term, Halogen Free PO/PO	.050" 28 TS-2335
HF759	Round, Jacketed, Flat Cable 28 AWG Stranded, Mass-Term, Halogen Free PO/PO	.050" TS-2336

Last Time Buys

Inventory of light gray resin cable still exists for the HF659 series of products; however 3M cannot guarantee availability to any specific date. Last time buys will be accepted until this inventory is depleted.

There will be no last time buy offered for the light gray resin on series HF365 and HF759 cables.
