Mouser Electronics
1000 North Main Street
Mansfield, TX 76063
adam.kirk@mouser.com

Attn: Adam Kirk

API Technologies has embarked on a transformation of the company that will not only increase our efficiencies, but more importantly, result in a focused team driven to better serve API's valued customers. We have made a decision as part of our transformation process to cease operations of our China Dongguan facility. The current closure date is February 28, 2018.

This letter is to inform you that API Technologies is relocating manufacturing currently performed in our China Dongguan facility to our other qualified facility in Juarez Mexico. We will continue to provide you and our other customers continuity for their current and future needs.

Thank you in advance for your understanding and cooperation during the transition. You are a key customer to API Technologies and we look forward to supporting your requirements with the entire portfolio of API's solutions. Should you have any questions, please contact your local API Sales Office or Representative.

Please complete the acknowledgement on page two and return as specified.

Sincerely,

Don Dilworth
Product Line Manager
