Beginning March 31st, 2013 Adesto will begin shipping parts with the "adesto" name as described below and in Appendix A. Note: Due to inventory already in assembly and inventory held by the Adesto franchised sales channel pipeline prior to this notice, customers are advised that product may be received with either the original Atmel marking or the new "adesto" marking. This marking change will affect the following package options and combinations for all active part numbers including Customer Applied Numbers (CAN's) effective from **March 31st 2013**.

Note : Die sale devices are not impacted by this change.

New shipments to customers or channel partners from Adesto facilities may contain both Atmel marked and Adesto marked products. These Adesto or Atmel marked devices will be segregated into different shipping boxes. Devices in Tape & Reel, Tube or Tray carriers will not contain mixed devices. Atmel and Adesto marked products may be combined into a single consolidated shipment. Documents and labels associated with these orders will also include Adesto's name and company information.

These marking changes will have no impact on the device, electrical specification, quality and reliability. The devices remain fit form and functionally compliant with the original device specification. There will be no change in manufacturing locations associated with this marking change.

Part numbers (catalog order codes, e.g., 'ATxxx') will NOT change.

Samples shipments may contain both Atmel and Adesto marked devices. If needed, please contact your Adesto sales representative to discuss your specific samples requirements.

Identification Method to Distinguish Change: Adesto name will be marked on the topside of the device

Proposed First Ship Date*: March 31st 2013			
<p><i>* The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Adesto will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.</i></p>
