

March 28, 2014

Dear Business Partner,

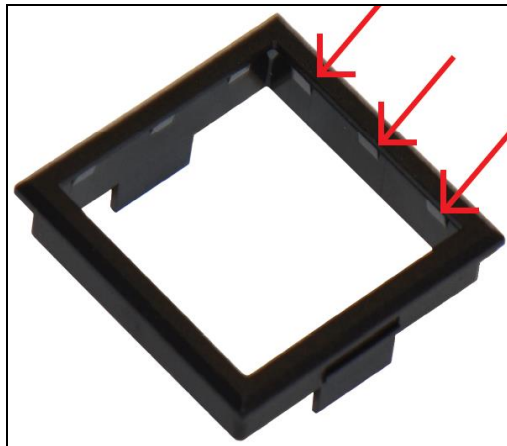

This letter is to inform you that our 2K bezel for cap series 1KS/1KBS/1KCS (and 1K/1KB/1KC) has been upgraded.

The "slopes" on the inside of the bezel have been widened and a third "slope" was added on all four sides, so now there are three "slopes" on all inner sides of each bezel. These "slopes" eliminate the chance of a cap getting stuck under the recess when pressing it unevenly.

Picture 1 – Close Up

Picture 2 – Full View

Sincerely,

A handwritten signature in black ink, appearing to read "David Allen".

David Allen
Product Manager
