Reason for Change:	☐ Material / Composition		☒ Manufacturing Location
	☒ Processing / Manufacturing		☐ Quality / Reliability
	☐ Design / Firmware		☐ Logistics
	☐ Datasheet		☐ Other:
Change Description:			
The above listed devices will be transferred to UMC wafer fabrication facility to ensure an uninterrupted flow of product to meet customer production demands. The facility will manufacture the parts to the same specification as LFoundry and will meet all the datasheet parameters. The UMC parts will be compatible in form, fit, and function to the LFoundry material and will also be a drop-in replacement to products that were produced in the LFoundry facility. Samples are only available in bulk and can be ordered through Atmel Sample Centre by logging on to https://samples.atmel.com/scripts/samplecenter.dll?atmel?cmd=menu. Specific ordering codes for new die revision samples only are shown in the table above, and are available for sample orders only until the proposed first shipment date. For production orders, only standard existing ordering codes will be accepted.			
Identification Method to Distinguish Change:			
New die source can be identified by lot code

Proposed First Ship Date*: April 15, 2015			
<i>*The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.</i>
