

Product Change Notice		Date February 3, 2021
Product	Digi Connect Sensor+ Notice #210203-01	

Audience	All Digi partners and customers
Product Notice	Sale of Digi Connect Sensor+ will be discontinued in 2021. Digi is investigating a redesign of the Connect Sensor+ and intends to make a suitable replacement for most customer applications available prior to the last time ship date. The end of life is due to obsolescence of Telit 3G modem HE910-D and changes to applicable UL standards impacting all Connect Sensor+ models. Digi Connect Sensor+ 4G models will end of life shortly after the 3G model in line with withdrawal of UL 60950 and UL 60065 standards in the United States. Specific last time buy and last time ship dates for each part number can be found on the second page of this Product Change Notice. - Telit modem HE910-D, which is utilized in the 3G version of the Digi Connect Sensor+, will be obsolete in 2021 - Digi has made every effort to bring its product portfolio up to the new IEC 62368 standards and intends for the redesign of Digi Connect Sensor+ to meet those requirements - Sales of Digi Connect Sensor+ products in the EU discontinued in December 2020. A grace period in North America allowed for a soft transition through 2021. - Upgrades to the Telit modem, enclosure and battery life as well as adding hardware protection to meet the requirements of IEC 62368 are all under research - Digi is committed to the Connect Sensor+ product line and will be releasing improvements to the current enclosure design in Q1 2021 Please work with your sales representative if you have any questions regarding this product change.
