TO: Valued Customers

[Notice] Change of Packaging Bag

We would like to express our sincere appreciation for your continuous business relationship and support.

We would like to hereby inform that we will change the packaging bag of the applicable product as mentioned below. The background of the change is that we have been informed from our supplier, that they have decided to discontinue the current packaging bag, because their production quantity decreased drastically, and they had concerns about stable procurement from their supplier.

To secure the continuous supply to our customers, we will propose to change the current packaging bag to an alternative packaging bag as mentioned below. We have judged that the production quality using the alternative packaging bag is the same level as that of existing products after our evaluation as attached evaluation report.

We will continue to give top priority to maintain the quality of IC products and continuously supplying them to our customers. Your understanding and cooperation will be highly appreciated.

◆ Applicable products: Please refer to the attached list

◆ Details of the change of packaging bag:

- The size of packaging bag: No change (300x360mm)
- The sealing method: No change (Heat-Seal)

Before Packaging
(Tape & Reel)

After Packaging

Moisture-Proof Plastic Bag

◆ Evaluation report:
