2. Description of Changes/News

Improvement of the Han® 200A module axial screw mating side ensures mating compatibility with all other 200A and 300A modules.

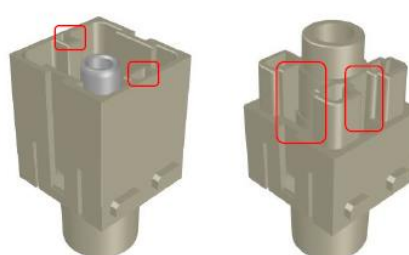

The modified 200A axial module will also be backwards mating compatible with the present 200A axial module.

The changes are marked red at the below drawings.

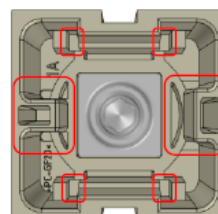

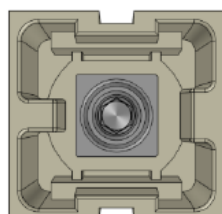

Current 200A axial module

New 200A axial module

The new 200A axial screw male module will get some additional depending, marked red.

Additionally, some outer edges will be smoothened a little to improve the handling.
