Subject: **Data Sheet Specification Change for Intersil Products ISL78600ANZ and ISL78600ANZ-T**

This advisory is to inform you that Intersil has updated the data sheet specification for the ISL78600ANZ and ISL78600ANZ-T products. The updates affect the *Typical Applications Circuits (Figures 45–47)* along with the associated recommended component values in *Table 50* and the component values in *Table 52* for the Daisy Chain Circuit. The resulting Typical Applications Circuits and component tables are included on the following pages. The updated data sheet is available upon request.

There have been no changes made to the die/silicon or device itself. There will be no change in external marking of the packaged parts.

Intersil will take all necessary actions to conform to agreed upon customer requirements and to ensure the continued high quality and reliability of Intersil products being supplied. Customers may expect to continue receiving product processed to the same established conditions and systems used for manufacturing of material supplied today.

If you have concerns with this advisory, Intersil must hear from you promptly. Please contact the nearest Intersil Sales Office or call the Intersil Corporate line at 1-888-468-3774, in the United States, or 1-321-724-7143 outside of the United States.
