Notice: SF56K Development

Improved SF56 micro SIM card connector now includes feature to automatically eject incorrect card types.

SF56* Part Numbers:

	Part Name	Drawing #	Sales Status
New Product	SF56K006VBAR2000	SJ116250 (Connector Drawing)	Promote for new programs
		SJ116251 (Package Drawing)	
Current Products	SF56S006V4AR2000	SJ112873 (Connector Drawing)	Continue support for existing programs
		SJ112874 (Package Drawing)	
	SF56S006V4BR2000	SJ114885 (Connector Drawing)	
		SJ114886 (Package Drawing)	

New Features:

1. New improved internal card eject structure to ensure other card types such as microSD and Nano SIM will not get stuck in connector if the end user accidentally inserts the wrong card in the SF56K.
2. New contact design prevents damage to contacts if an empty card adapter is inserted. Both ends of spring contact are anchored to prevent buckling and deformation of contacts.

Promotion Policy Effective Immediately:

1. Promote the new SF56K for all new projects.
2. SF56K is not a drop in replacement for the current SF56 products, so existing customers will continue to be supported with the existing SF56 part numbers until further notice.

SF56-A/B and SF56K Comparison:

	SF56S006V4AR2000 SF56S006V4BR2000	SF56K006VBAR2000
Size	16(D) * 14.4(W) * 1.25(H)	16.2(D) * 14.7(W) * 1.27(H)
Contact	Standard	Anti-buckling structure
Nano SIM/ Micro SD Card Ejection	No	Yes

For any questions regarding this matter, please contact your JAE account manager.

Thank you for your cooperation.
