#160A

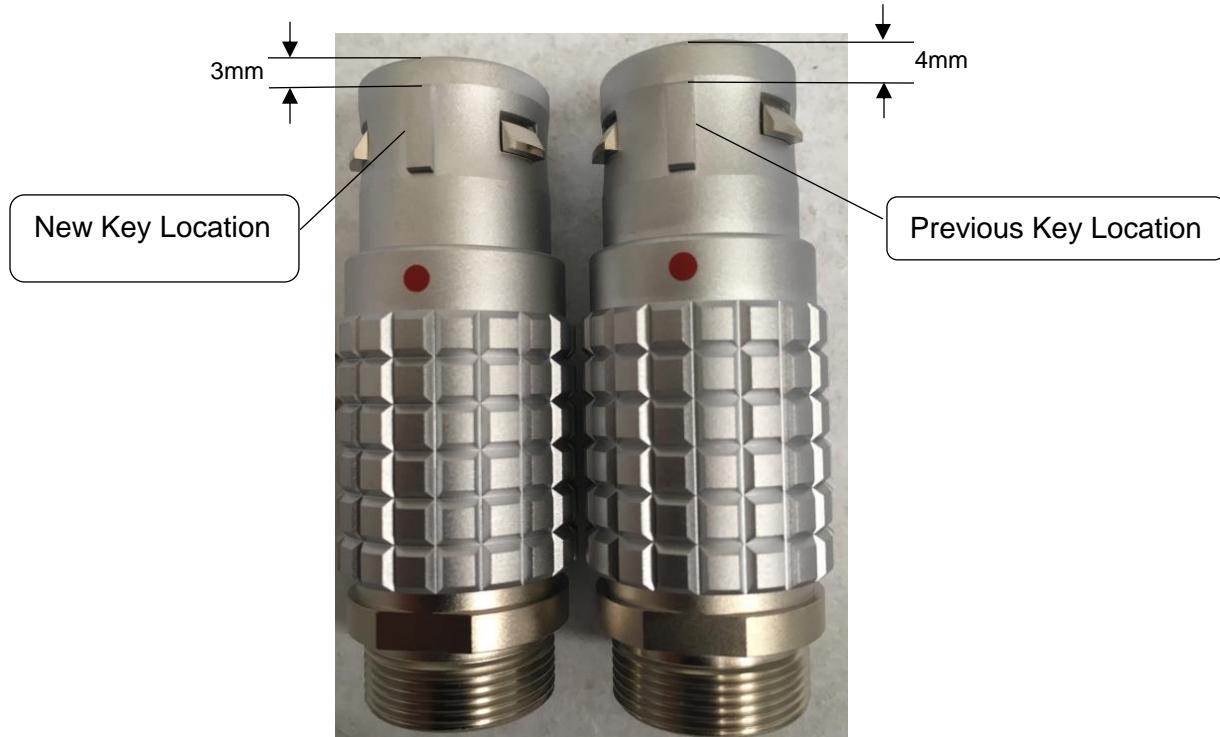

FGG.4B Plug Shell with Modified Key Location

Summary:

- 1) With reference to Product Update #160 (originally sent in April 2016), the key has been extended to the standard length but remains 1mm closer to the mating interface to improve the ease of mating.
- 2) The new plug shells are compatible with existing receptacles
- 3) The price of the plug is unaffected

Details of Product Change:

- 1) The key utilized by the FGG.4B has been redesigned. It is now the standard length and remains 1mm closer to the mating interface. The intent is to ease the mating to any **E_G.4B**, **H_G.4B**, or **P_G.4B** receptacle, as well as any **RGJ.4B**, **SGJ.4B**, or **SJG.4B** coupler.

WWW.LEMO.COM

Details of Product Change (Continued):

- 2) As only the plug has been modified, the new FGG.4B plug is backwards compatible with any receptacle of any style.
- 3) The pricing of the FGG.4B shells, and the resulting connectors that use it, has been unaffected.

Effective Date of Change:

FGG.4B connectors, using the new FGG.4B outer shell, are available immediately.

If you have any questions or concerns regarding this change, please contact Customer Service or Applications Engineering at 1-800-444-5366 or email: info-US@lemo.com
