

To: the respected W-wide Clients & Distributors.,

**EOL Announcement for 85d C Radial DIP type E-Caps**

(2022-06-01, Taipei, Taiwan)

Owing to the reasons of the followings:

1. 85d C E-Caps Demands from Marketing for over x 40 months tracing, concluded as Less 1% of our Overall Q'ty produced
2. All the Parts can be easily replaced by SMD (V-Chip) or MLCC as well
3. In the worst case, the Alternative is stand-by : that is our 105d C Type is available
4. All Parameters & Size are the same, **EVEN The Selling Price**, too. Except the TC's is much better as 105dC instead of 85dC

- THEREFORE -

85dC on supply & running type

to be EOL for Replaced by 105dC type

REA

RGA

RLA (w/low LC)

RA (w/low LC)

**EOL Plan will be scheduled on below:**

aa. the Last buy Order..... before end of 2022

bb. the Last Delivery Ex Fty..... before end of Jul. 2023

cc. in the worst case lasting for Supply **till End of 2023**, **(No more from 2024/1/1)**

May it have **NO** any Difficulty on execution of 85dC DIP E-Caps EOL Program

LELON would remain to count on your Attention & Cooperation, then

**LELON ELETRONICS CORP.,**
