RE: PCN # - 57135 series magnet actuator over-molding material change

To our valued customers,

Please note the 57135 series magnet actuator has been assigned a new over-molding material. The new material enhances the performance of the product in temperature range from -40 C to 150 C and passed our internal qualification. The new material will be implemented to the product with purchase order after October. Qualification Report can be supplied upon request.

Thank you for your attention on this matter.

Please let us know should you have any further queries.

Best Regards,
