

Product Change Notification

LFPCN#: 41289

Issue Date: 1/3/18

By: Dhatri Bhatt

Global Product Manager

DBhatt@littelfuse.com

Type of Notification:

Design Change

Description of Change:

T-Line TSM600 series housing design change

Implementation Date:

February CY18

Product Affected:

- Part description (Part Ordering Number)
 1. TSM600-250F Series
 - a) TSM600-250F-2 (A88766-000)
 - b) TSM600-250F-RA-2 (A88390-000)

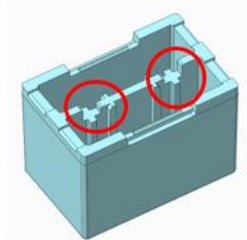

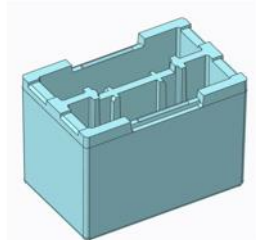

Additional Information:

- Reason for change:

Current design assembly process could create burrs at the bottom of TSM600-250F devices which can cause device to be raised off surface and lead to loose solder joints. As a preventative measure, the housing design was re-evaluated. This is a minor cosmetic change that will not affect performance.

- Scopes of the change:

1. **Part appearance will be changed due to minor cosmetic change on bottom of housing.**

Current Design

New Design

- No Change to the following:
 1. Data sheet will remain the same
 2. Part description and ordering number will not change.
 3. Part material will not change.
 4. Part specification and performance will not change.
 5. Part MOQ and packaging method will not change.

- Design change evaluation data, please refer to the attached:
 1. Part qualification report with new housing design.
