RELEASED

## After Change

### Overview

1. Plastic molded components are transferring from LRC to MSH.
    - a. The exact same tools are physically moving from LRC to MSH. The same resin and same resin vendor will continue to be used for these parts (latch frame, housing, back of housing).
    - b. There is 18 weeks of buffer stock already in the plant of the components produced in LRC.
    - c. If parts are required for samples, we will have the ability to produce samples off of the tools in MSH within the first half of Sep.
  2. Wafer production moving to local supplier in China.
    - a. New wafer tooling will be built at local suppliers.
    - b. Molex qualification data and parts expected to be available in and of Q4CY18 or early Q1CY19.
- Product Impact
    - no impact to fit, form or function or spec. is expected.
  - Part Number Impact
    - see attached impacted parts list\*
  - Qualification Reports and samples available upon request after the date shown above
