Sample Availability Date (Changed Part)	March 15, 2019		
Planned Implementation Date	March 29, 2019		
Method of Identifying Change	Factory order number		

RELEASED

Before Change

After Change

Overview

- Molex is making changes to the terminal crown point on RAST 2.5.
- We will reduce the number of crown point options within this product family to have a single crown point as the preferable terminal.
- This change will increase the connector life span due to an improved contact profile. The new contact profile will experience less plating wear during mating, which will result in improved performance characteristics.
- Part number Impact
 - See attached impacted parts list
- Qualification Reports and samples available upon request after the date shown in the PCN letter

Product Change Notification (PCN)

You may address any technical inquiries regarding this PCN by sending E-mail to pcn_coordinator@molex.com or your Local Sales Engineer.

Note: While responding, please retain "**PCN Notification:506825**" in the e-mail Subject line for faster response.
