

Product Change Notification (PCN)

PCN Number	506872	Date Issued	February 26, 2019
Reason for Change	Capacity change or tool replacement		
Change Type Description	This letter is to inform you that another set of tooling is being added to meet the current and future demands of this product. There will be no changes in the fit, form or function from the additional tooling when compared to the current tooling.		
Assessment of Change	Passed FAI		
Internal Molex Qualification Date	February 20, 2019		
Sample Availability Date (Changed Part)	February 20, 2019		
Planned Implementation Date	September 02, 2019		
Method of Identifying Change	Product made after planned implementation date can contain the change		

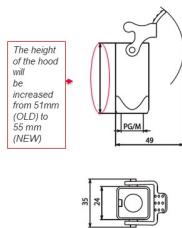

Before Change

- «21x21» metal hoods top entry with lever.

PCN#506872 – Planned Implementation date: Sept. 02, 2019

After Change

Overview:

- This document is to inform you that Molex HDC is going to replace the mold for «21x21» metal hoods top entry with lever.
- This is part of our consolidated process of maintaining the operations. The new mould will create less waste than the current one which is getting closer to the end of the shelf life.
- By replacing the old mold, the height of the product has been slightly increased with the purpose to increase the internal area and provide a wider room for the cables.
- As per the above, the form of the product will be slightly affected.
- The function of the product will remain unchanged.
- The picture on the left represents the involved products.
- See attached impacted parts list.
- Qualification Reports and samples will be available upon request after the date shown above.
