After Change

- PCN#507601 - 10B & 24B HC Top & Side Entry Hoods Round shaped

**Overview:**

- As part of our continuous improvement process, we/Molex HDC have upgraded our 10B & 24B High Construction hoods, Top & Side entry – same as already done with the 16B size.
- The upper part of the hood has been enlarged (see picture point 1), the bending at the top has been slightly reduced (see picture point 2).
- This change will ensure a better performance even when connected to cable glands of bigger sizes, such as PG29 and M40.
- Even the aesthetic of the surface has been renewed with a new design for the grooves (see picture point 3).
- This change involves both the form and the function of the products.
- See attached impacted parts list.
- Qualification Reports and samples available upon request after the date shown above.

## Product Change Notification (PCN)

---

You may address any technical inquiries regarding this PCN by sending E-mail to [pcn\\_coordinator@molex.com](mailto:pcn_coordinator@molex.com) or your Local Sales Engineer.

Note: While responding, please retain "**PCN Notification:507601**" in the e-mail Subject line for faster response.
