Method of Identifying Change	Product made after planned implementation date can contain the change		

RELEASED

Before Change

After Change

- Introduction of a new plastic material for 3A «21x21» hoods/ housings, in addition to the current one.

**Overview:**

- This document is to inform you that Molex HDC is introducing a new plastic material for 3A «21x21» hoods/housings. This is an addition to the current one which will be used as an alternative.
- This implementation will reduce the risk of potential delivery issues which could be the consequence of delivery delays because of the shortage on the market.
- In conjunction with the addition of a second material, the thickness of the involved products has been slightly increased, with the purpose to make it stronger and upgrade the performances.
- The pictures on the left represents the involved products. See attached the impacted parts list.
- Fit & function of the product won't be affected. The form will be impacted just in terms of thickness review.
- Qualification Reports and samples will be available upon request after the date shown above.
