Overview

- 2021 ~ 2022 has caused a global shortage for various grades of resin. This extraordinary event, in conjunction with an already constrained market, has caused immediate and severe disruption in the industry. Due to these supply constraints of LCP marketing, Molex identified the shortage risk of resin supplying which would create a challenge to fulfill all orders. Therefore, an alternative resin has been identified for relative product.
- Molex evaluate and select the same type of alternative resin with current resin material. Molex team will take necessary qualification action on new source material to ensure the product meets the same form, fit, and function requires as defined in the current Molex product specification and sales drawing.
- **Product Impact**
 - "no impact to fit, form, function".
- **Part Number Impact**
 - see attached impacted parts list
- **Planned Implementation date.**
 - Level 4 PPAP will be available upon request beginning 14th July 2022. Request for PPAP must occur by 14th July 2022. Submissions must will not occur without request.
 - If PPAP requested, disposition response required within 5 days of submit date or it will be considered approved.
 - If no PPAP requested by 14th July 2022, the PPAP will be considered approved.
