Last date to request Samples by Customer :	December 30, 2022		
Traceability Code Markings / Date :	Product made after planned implementation date can contain the change		

Before Picture

Before Change

- **Pre plated Brass strip with PN 0679990012 - ST C26000 PL 0.254 X 26.16(H06) is currently being supplied by KMD Connectors Stolberg GmbH. Since one of their plant in Europe was affected by flood last year, they have been facing a huge capacity shortage and accumulation of demand backlog.**
- **Since backlog is too high to manage with their current production capacity, KMD is not accepting any new orders from Molex India in 2022. They are unable to share a tentative timeline to streamline the process at this point of time.**

1

After Picture

After Change

- Dowa Advanced Materials Shanghai supplies similar material **648971809** ST C26000 PL 0.254 X 28.00(H06) to Molex India with very minimum deviation on specification compared to PN **0679990012**.
- Product Engineer and Global / Plant Supplier quality team compared both specifications and approved to add the PN **648971809** as a dual grade and Dowa Advanced Materials Shanghai as a dual source to the BOM since they can supply **0679990012** in future. This is not a complete replacement of existing material but an addition of alternate grade / source to the supply base.
- This change is applicable only for Molex India plant.
- There will not be any effect on Fit, Form and function of the Connector.
- Affected PN is **0679990012**.
