Before Picture

Overview

- This PCN is a Retraction for previously released PCN 512010 communicated on May 19, 2022 for the following:
 - A second source material supplier is being added.
 - To ensure ability to provide for current and future demand.
 - Change being made only for Plants in North America
 - Second source supplier is an approved supplier to Molex
- The reason for this retraction is that there is no longer a need for the additional supplier source for the material.
- If at a later date it is determined that an additional source is needed, a new PCN will be created.
- No Qualification reports, PPAP, or samples will be available for this change due to the retraction.
