

Product Change Notification

Date Issued :	June 18, 2025	PCN Number :	517046
Reason for Change :	Equipment Transfer, Production Transfer or Rearrangement Change Supplier		
Description of Change :	This notification is to inform you about the manufacturing location transfer that have been used to impacted parts. No changes will be made to product as part of this change.		
Assessment of Change :	Reliability Test Report/s		
Planned Implementation Date :	January 31, 2026		
Customer Sample Availability Date:	November 15, 2025		
Last date to request Samples by Customer :	November 30, 2025		
Please note if Samples are not requested as per Customer Samples Request date, it may take additional 4-6 weeks to arrange Samples.			
Traceability Code Markings / Date :	Lot information on label		

Before Picture

■ CTX50 (Sn)rcpt Terminal

After Picture

Overview

- 1. Existing CTX50 Sn rcpt terminal are produced in Molex Lincoln Nebraska Plant, in order to mitigate the tariff impact between US-China, and meet the customers' expectation on "local supply chain", we plan to duplicate the tooling in China to supply Chinese Customers' demand. The Tooling will be the exact duplication of the current tool.
- 2. Molex will qualify additional raw material supplier to ensure material supply continuity. The additional source supplier is already an existing metals supplier qualified by Molex on other copper alloys. The additional supplier source will only affect product produced in China. New material supplier will help Molex keep up with current and future demand in China Market.
- 3. The above change will follow qualification process of Molex. No change on fit, form and function.
- 4. The above change will be applied to Chinese customers only.
- Product Impact: "no impact to fit, form or function"
- Part Number Impact: see attached impacted parts list
- Qualification Reports and samples available upon request
- PCN will be implemented once all required qualification/ validation has been completed and all necessary approvals have been obtained.
