MX150 Female Terminal for Mat-Sealed Connectors

After Picture

## Overview

- This PCN will be applied to Chinese customers only. All below changes will impact Chinese customers only.
- 1. Existing MX150 rcpt terminal (Ag plating) are produced in Molex Lincoln Nebraska Plant, in order to mitigate the tariff impact between US-China, and meet the customers' expectation on "local supply chain", we plan to duplicate the tooling in China to supply Chinese Customers' demand. The Tooling will be the exact duplication of the current tool.
- 2. We will qualify local raw material supplier to ensure material supply continuity. The local source supplier is already an existing metals supplier qualified by Molex on other copper alloys. The local supplier source will only affect product produced in China. Local material supplier will help Molex keep up with current and future demand in China Market.
- 3. The above change will follow qualification in process of Molex. No change on fit, form and function.
- 4. The above change will be applied to Chinese customers only.

- Product Impact: "no impact to fit, form or function"
- Part Number Impact: see attached impacted parts list
- Qualification Reports and samples available upon request
- PCN will be implemented once all required qualification/ validation has been completed and all necessary approvals have been obtained.

# RELEASED
