After Picture

• Overview :

To support customer request and improve product quality since removing issues related to human, Molex Vietnam fabricates new automation machine for PCIe connector to replace the current assembly processes. Also, after new automation machine is completed, it will be moved from 3rd floor to 1st floor at Molex Vietnam plant.

These changes were started qualification from Sep-2025 and targeted to finish Nov-2025.

• Part number impacted :

2080211005

2080211105

• Qualification report and samples :

Available as per execution plan

• Identification :

After switching to automation line, "A" letter will be marked on label during one first production month.
