Assessment of Change	Passed FAI		
Internal Molex Qualification Date	January 25, 2017		
Sample Availability Date (Changed Part)	January 25, 2017		
Planned Implementation Date	February 25, 2017		
Method of Identifying Change	Date code		

Before

- Housing material of 48099 Series as Nylon 46

Overview of after change

- Current 48099 Series use Nylon 46 resin, due to this material has high hygroscopic feature which lead to risk of blistering while IR reflow. We propose to change the raw material of the product (from Nylon 46 change to LCP), it will benefit stock both at Molex & Customer side, no function impact on customer application.
- Product Impact
 - No appearance change on product,
 - Avoid risk of blistering while IR reflow
- Part Number Impact
 - 480994000/ 480995701
- Qualification report and samples available upon request
