Bourns Releases New Power Resistor Series - Model PWR220T

Bourns® Fixed Resistors Product Line introduces [Model PWR220T](#). It is a compact low profile power resistor rated to 20 W continuous power in an industry standard TO220 housing. The PWR220T family is able to support lead free wave soldering temperatures and is fully RoHS* compliant.

PWR220T has an excellent pulse power rating and low inductance. Its wide resistance range, pulse power handling and low inductance make it suitable for many applications including uninterruptible power supplies, welding machines, automation, lighting, telecom power supplies, aerospace, automotive and railway equipment.

Regards,
Cathal Sheehan
