Converting inner packing carton boxes from ATTJ to ATKL

Description
NXP ATTJ is to temporarily use the NXP ATKL inner packing box, which shares the same drawing and manufactured by ATKL box vendor, to address the carton box supply shortage.
The temporary solution’s period will last around 1 month, starting from Feb 15, 2020

Reason
As the current coronavirus situation in China, the NXP ATTJ packing box's supplier (International paper) could not guarantee on-time delivery. Consequently, NXP ATTJ would like to purchase and use the packing carton box which currently supplies NXP ATKL as a temporary solution to address any packing box supply shortage.

Anticipated Impact on Form, Fit, Function, Reliability or Quality

Disposition of Old Products
Only the boxes will be coming from a different supplier. The actual devices are not changing at all.
