

Title of Change:	Update of Product Data Sheet for the T092 Package to indicate correct Date Code Marking for the listed IC Products.		
Effective date:	3 October 2016		
Contact information:	Contact your local ON Semiconductor Sales Office or < alan.garlington@onsemi.com >		
Type of notification:	ON Semiconductor will consider this change accepted.		
Change category:	☐ Wafer Fab Change ☐ Assembly Change ☐ Test Change ☒ Other: <u>Marking Date Code</u>		
Change Sub-Category(s): ☐ Manufacturing Site Change/Addition ☐ Material Change ☐ Datasheet/Product Doc change ☐ Manufacturing Process Change ☐ Product specific change ☐ Shipping/Packaging/Marking ☒ Other: <u>Date Code Marking Correction</u>			
Sites Affected: Not Applicable ☐ All site(s) ☒ not applicable ☐ ON Semiconductor site(s) : ☐ External Foundry/Subcon site(s)			
Description and Purpose: The style of the Product date codes actually being marked on the IC T092 Products does not match what is stated in the Product Data sheets. The product data sheets will be corrected to reflect the actual style being used. Example of a current data sheet date code: MC78L zzABP ALYWW 1 2 3 MC78L zzACP ALYWW 1 2 3 zz = 05, 08, 09, 12, 15, 18 or 24 A = Assembly Location L = Wafer Lot Y = Year WW = Work Week <u>ALYWW</u> style of code has never been used on these products due to insufficient space on the package. <u>ALYW</u> style has actually been in use for many years.
