Subject: Product Status Notice – End-of-Life (EOL)

Valued Channel Partner,

Advanced Energy regularly reviews product lifecycle status on its products to mitigate risks including but not limited to component availability and regulatory changes. Due to increasing costs and limited demand, select legacy products have move to an End of Life (EOL) status.

The price list issued in October 2022¹ included many model numbers that were designated EOL (End-of-Life). The Last-Time-Buy terms were not provided at that time, so this correspondence is being issued to ensure proper communication of these terms:

- ***Orders for these models can be accepted through June 30, 2023, with shipments to be made before December 31, 2023.***
- ***Prices are as detailed on the aforementioned price list.***
- ***Orders placed will be non-cancelable and non-returnable (NCNR).***

SL POWER ELECTRONICS CORPORATION

In addition, the models listed below are not on the price list, but were designated EOL in the past and we have until now continued to support production. These will also be subject to a Last Time Buy offer, with the same order and shipment terms stated above. Contact your local AE Representative, Sales Advocate, or Regional Sales Manager for price quotes.
