Re: Kycon PN: STX-3000

Kycon has made an improvement to part number STX-3000. The peg lengths have changed from 1.8mm to 1.0mm. This will help to insure that pegs do not get damaged during shipping while still providing customers with the added strength the peg provides.

We will continue to supply the current parts until our inventory is depleted. Please contact your Kycon sales representative if you have any questions.

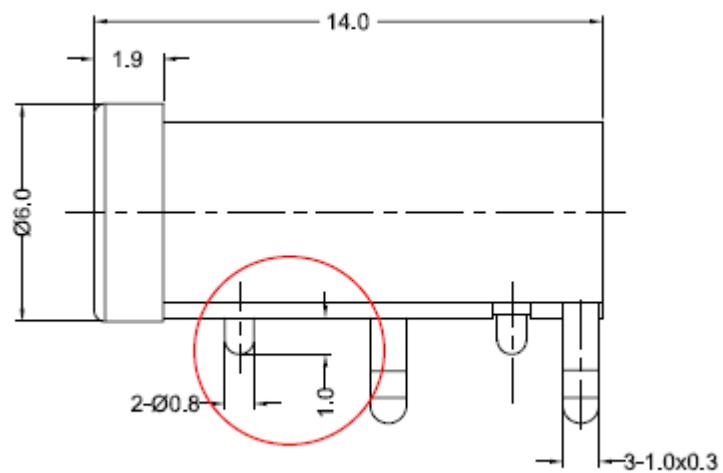

Please see below for pictures of the difference.

If you have any questions, please contact your Kycon sales representative.
