New design - Bottom view

Existing design - Side view

New design - Side view

7. Reason for Change:

1. The revised design improves the coplanarity while retaining the same specification on the print, 0.10 mm [.004 inch]. 2. The revised design will not affect the footprint.

8. Impact of Change on Form, Fit, or Function:

- Form - This is a visual change, which is visible by naked eye.

9. Projected Implementation Date: April 17, 2020

Disclaimer

Please review the change notification details listed above for specific information regarding the nature and timing of the change. While Samtec has taken precautions to ensure this change is not detrimental to your application, each application can be unique and therefore customers should consider the effect of the change on their specific application.

Samtec has taken efforts to ensure that all users of this product who have requested change notifications have been informed. However, you should assume that this is the only notification that will be sent and you, as the recipient, must determine how to communicate this information to your organization(s) and customer(s) as appropriate. If you wish to opt out of receiving Samtec Engineering Change Notification emails, please contact CustomerECN@samtec.com. Due to technical progress, specifications are subject to change without notification and it is recommended to provide an alternative contact when opting out.

Please contact Samtec at CustomerECN@samtec.com for any questions related to this change.
