Removing materials at both ends of insulator. This will be a rolling change and new revision insulator will be used once current revision is depleted.

**6. Method of Identifying Change**

The change can be seen visually by reviewing the image below.

**7. Reason for Change:**

Removing materials at these four locations can improve the warpage of insulator.

**8. Impact of Change on Form, Fit, or Function:**

- Form - This is a visual change, which is visible by naked eye.

**9. Projected Implementation Date:** November 10, 2021

### **Disclaimer**

Please review the change notification details listed above for specific information regarding the nature and timing of the change. While Samtec has taken precautions to ensure this change is not detrimental to your application, each application can be unique and therefore customers should consider the effect of the change on their specific application.

Samtec has taken efforts to ensure that all users of this product who have requested change notifications have been informed. However, you should assume that this is the only notification that will be sent and you, as the recipient, must determine how to communicate this information to your organization(s) and customer(s) as appropriate. If you wish to opt out of receiving Samtec Product Change Notification emails, please contact [CustomerECN@samtec.com](mailto:CustomerECN@samtec.com). Due to technical progress, specifications are subject to change without notification and it is recommended to provide an alternative contact when opting out.

Please contact Samtec at [CustomerECN@samtec.com](mailto:CustomerECN@samtec.com) for any questions related to this change.
