**Date:** 7/22/2013

**Subject:** UTS and UTO 12-4 insert modification

**Product Part Number:** UT0\*124\* and UTS\*124\* excluding UTS0124P and UTS0124S

**Description of Change:** A small hole has been added to the insert in order to improve the flow of plastic during molding operation

**Anticipated Impact on Form, Fit, or Function:**

The new layouts can be identified as shown below and remain backward compatible. Electrical and mechanical performances remain intact.

Detail of the current rear face :
